Rate discussion/sewer**

Meeting called to order 6:35

Laurie Stevens from ARCAP did a presentation for different options for sewer rates, based on the request from Board of Selectmen.

The three options are:

Per bedroom 4 cap bedroom

Per bedroom cap 3 bedrooms

Rates Based on EDU usage.

This amount of \$850,000 is the annual cost for running the sewer system when the two treatments plants are up and running.

KK made a motion we choose option 3 rate based on edu that were recalculated based on site visits and title 5 calculations, with the understanding that we will rewrite our regulations with this option and the additional two options that were provided to us based on a per bedroom; with a four bedroom max based on a per bedroom, with a three bedroom max, and reevaluate our rates annually prior to town meeting.

EV seconded.
