What is this walk-shop about?

Hardwick is in the process of updating its Open Space and Recreation Plan (OSRP). The purpose of the OSRP is to serve as a guide for future management and development of Town Open Spaces and Recreation assets, with emphasis on strategy and implementation. The plan will also outline specific actions to achieve open space and recreation goals. This public walk-shop is a great opportunity for community members to voice their concerns and interests surrounding Hardwick's open space, recreation, natural, historic and cultural resources with the Open Space Committee.
