Resource Waste Management

This company hauls and processes all of our mixed paper, comingle, and scrap metal.

Additionally, they provide the container for our bulk waste events. All materials taken during those events are processed and recycled. They are committed to creating the opportunity for patrons to recycle more material out of the solid waste stream.

Planet Aid www.planetaid.org

FBS Tire Recycling www.fbstirerecycling.com

The company collects and recycles about a third of the nation's scrap tires, saving more than 140 million tires from the waste stream each year.
